NUMBER 98.

YIELD TO THE HOUSE.

Senate Committee's Action On the Pending Reciprocity Treaties.

BOTH BRANCHES TO PASS UPON THEM.

Dingley Bill Authorizing These Commercial Agreements Contained a Provision Requiring the Consent of the Entire Congress.

Washington, March 17.—The senate committee on foreign relations has decided to again take up the reciprocity treaties with a view to securing such amendments to them as will insure their ratification. There has long been contention on the part of the members of the house of representatives that because these treaties affect the tariff system they should be passed upon by the house as well as by the senate. The senate committee on foreign relations was not disposed to concede this point, but because the Dingley bill, authorizing these commercial agreements, contained a provision requiring the consent of the entire congress, the committee has now taken a position favorable to the house contention. This it has done in adopting the report prepared by its sub-committee of which Senator Spooner is chairman. The report recommends that each of the reciprocity conventions be amended so as to provide that it shall "take effect when approved by congress."

The members of the committee, however, are outspoken in their declaration that this concession does not in any way affect the treaty-making power of the president and the senate, which they contend is exclusive of the house, but the majority members say as they voted for the Dingley bill, which contains the reciprocity clause, consistency on their part requires that they should insert this clause.

Against Tariff Reduction.

Washington, March 17.—The meeting of Republican members opposing the ways and means committee on Cuban reciprocity resulted in agreement not to accept any compromise involving a reduction of tariff duties. This in effect is an instruction to insist upon the rebate plan as against the reciprocity plan.

The meeting was attended by 52 Republican members. A resolution had been framed by Representative Tawney and this served as the basis of action. The discussion was all opposed to an agreement which would reduce the tariff even temporarily. It was finally agreed, however, to give the understanding an affirmative aspect, namely that any plan for the relief of Cuba would be acceptable if it did not involve a reduction of the tariff.

In the House.

Washington, March 17.—Sprays of shamrock in honor of St. Patrick's day graced the lapels of the coats of half the members when the house met.

Immediately after the approval of the journal the house went into committee of the whole, and commenced the consideration of the river and harbor bill. Mr. Burton of Ohio, who was in charge of the measure, made the opening statement.

Mr. Foster (Ill.) discussed the Boer war, denouncing the majority for failing to allow congress to consider a resolution expressing the sympathy of the American people with the struggling Boers. He said that the administration with the Philippine war on its hands dared not open its mouth on the subject of the South African war. England and America, he said, were tarred with the same stick; both were seeking to crush the life out of peoples fighting for independence.

In the Senate.

Washington, March 17.—In the senate a resolution providing for the appointment of a board to investigate the project of constructing an inter-oceanic canal across the isthmus of Darien was reported unfavorably by the inter-oceanic canal committee and was indefinitely postponed.

New York, March 17.—The old Dominion freight steamer Richmond from Norfolk, Va., while bound up the bay in a dense fog collided with the bark John S. Emory of Boston, at anchor off Robbins Reef in the upper bay. The Richmond was badly wrecked by the collision, the bowsprit of the bark raking her from the fore to the main rigging. The main chain plates, after house, fore topmast, two boats and davits on the starboard side were carried away and the two top sections of her smokestack was injured. The bark was only slightly injured.

DOZEN DROWNED.

Life Saving Crew Lost While Attempting to Reach a Distressed Barge.

Chatham, Mass., March 17.—Seven members of the Monomoy life saving station, including the captain, were drowned while trying to reach a distressed barge in a terrible sea. One boatman, Surfman Ellis, was rescued by a sailor from the barge which had summoned the life savers to her assistance. He was unconscious for several hours, so that details of the disaster could not be learned. The men who perished are: Captain Marshall Eldridge, South Chatham; Elijah Kendrick, Harwich; Osborne Chase, Harwich; Arthur Rogers, North Harwich; Thomas Foye, South Chatham; Valentine Nickerson, Harwich. Captain Eldridge is a widower. All the others were married and had families.

Five persons from the barge Warden in addition to the seven members of the life saving crew were lost by the capsizing of the surfboat of the Monomoy station. Surfman Ellis on regaining consciousness made known the fact that the lifeboat had reached the barge and had taken on board five persons from the barge and was returning to the shore when it capsized. These men were lost in addition to the crew, making 12 in all who perished.

Evacuation of Boston.

Boston, March 17.—The 126th anniversary of the evacuation of Boston by the British was celebrated in South Boston by the unveiling of a monument erected on the breastworks of the colonial army on Dorchester Heights. This monument was erected by the state of Massachusetts on this site as a memorial to the valor of the New England militia and the military guards of Washington. A military parade preceded the ceremony and following it, United States Senator Henry Cabot Lodge delivered an eloquent historical oration. Rear Admiral Schley, who was the guest of honor at the banquet in honor of the occasion, rode in the procession with Mayor Collins.

Colombia's New Minister.

Washington, March 17.—Senator Jose Vicente Concha, the newly appointed minister from Colombia, presented his credentials to President Roosevelt. He was accompanied to the state department by Dr. Silva, the retiring minister, and Mr. Herran, who has acted as charge at times and is the secretary of the legation. Secretary Hay escorted the new minister to the White House. The speeches exchanged had as their keynote the expression of hope for closer commercial relations between the United States and Colombia.

Troops Depart.

Norfolk, Va., March 17.—The troops which have been on duty here during the strike of the street car men left for their homes. It is thought by many that it will be necessary to recall them. The first trouble following the withdrawal of the troops occurred on the Oceanview line. A rock was tied to a trolley wire and when a car passed at high speed it was thrown against each window and the passengers were cut by flying glass. If there is trouble the militia will be returned and held until the disturbance ceases.

Hotel Scorched.

Atlanta, Ga., March 17.—Gelder's hotel was badly damaged by fire. The flames were discovered in the basement of Tyner's drug store at the corner of Broad and Marietta streets, and in five minutes afterwards the hotel was filled with blinding smoke. Chemicals in the basement of the drug store and some whisky stored next door in a saloon caught fire and added to the flames. Loss \$30,000.

Presidential Postmasters.

Washington, March 17.—The president sent the following nomination to the senate: Postmasters—Kentucky—James H. Appay, Mayfield, Ohio—H. S. Mooney, Cardington; W. S. Cappeller, Mansfield, West Virginia—A. Darnell, Buckhannon; Allison H. Fleming, Fairmount; Gordon B. Gibbons, Parkersburg.

British Vessel Ashore.

New York, March 17.—The British barkentine Persia, from Buenos Ayres for New York, with a cargo of hides, went ashore near Point Lookout, L. I. Her crew of 10 men were taken off in the breeches buoy by the Longbeach life saving crew. The Persia registers 578 tons net and sails from Haifa port, N. S.

Threats of kidnapers to abduct his three children have caused Alexander R. Peacock, a wealthy Pittsburger, to move his family to New York.

Willard Smith, 20, who sought to blackmail a merchant at Tiffin, Neb., was shot and killed by one of a party of four men who entrapped him.

REBELS SEIZE A PORT,

But Government Troops, After a Brief Fight, Recapture It.

TURBULENT TIMES IN VENEZUELA.

Insurgents Very Active at All Points and the Situation Appears Grave For the Castro Regime. Movements of Belligerents.

Port of Spain, Island of Trinidad, March 17.—The Venezuelan insurgents commanded by General Monagas, captured the port of Guanta March 13. Six custom house officers were wounded. A Dutch steamer arrived off Guanta shortly after insurgents had taken possession of that place and transferred to the revolutionists several bags of mail matter, the steamer's officers thinking they were dealing with the legal authorities. Government troops, commanded by General Venutini, recaptured Guanta Sunday. The insurgents have taken possession of Cariaco and are marching on Cumanas. The insurgents also continue to threaten Carupano, which place, it is said, they will most likely capture shortly.

The revolutionary steamer Bolivar landed a force of insurgents March 13 on the shore near Puente Piedras, north of the island of Margarita, and March 15 the steamer landed war munitions and insurgent forces near Cumarbebo, opposite the island of Curacao, to reinforce the revolutionary troops under General Riera, who was preparing to attack Coro.

The Venezuelan insurgents are very active at present and the situation appears to be grave for the government of Venezuela. It is reported here that the insurgents have captured Guidad de Cure, near Valencia.

The Bolivar is at present off the coast of the island of Margarita, which the insurgents of Venezuela are attempting to capture. It is said that the island of Coche, which commands the Margarita channel, is in possession of the insurgents.

Coming to the States.

Liverpool, March 17.—The White Star line steamer Oceanic, which sails from this port March 19 for New York, will have among her passengers, Alfred Mosely and the Marquis Townshend. The former is going to America to arrange for the visit of his labor and education commissions to the United States. Alfred Mosely is going to the United States to arrange for the visit to this country in the autumn of a commission representing workmen's organizations in five-sixths of the great British industries. The delegates who will be elected are to accompany Mr. Mosely at his expense. They will be accompanied by newspaper and literary men.

Fire at Bryn Mawr College.

Philadelphia, March 17.—The loss resulting from the fire at Bryn Mawr college will be much greater than was at first supposed. Denbeigh hall, the finest of the college buildings, which was erected at a cost of \$190,000, was entirely destroyed and its contents, valued at \$35,000 at least, were consumed. Seventy young women occupied chambers in Denbeigh hall, and their individual losses have not yet been learned. Miss Thomas, president of the college, said that during the progress of the fire there had been some looting by strange men, but added that the thefts of jewels, etc., were not extensive.

Girl a Stowaway.

New York, March 17.—When the steamer Pretoria, which has arrived from Bermuda, was a short way out from this port, the purser started on his round to "check up" the tickets. He was taken aback to find a demure and neatly dressed little quadroon girl sitting on deck near the gangway, hugging a small, neatly packed and tied bundle and appearing perfectly at home with her surroundings. The girl said her name was Bertha Walman, and that her mother is in the United States. She was a stowaway in the eyes of the law, but was well treated on the voyage.

Ohio Blind Institute Affair.

Columbus, O., March 17.—The trustees of the institution for the blind submitted their report of the recent investigation at the institution to the governor after the findings had been approved by the house committee which took part. As a result of the investigation all the members of the "committee on reform" have been suspended and several students not entitled to the benefits of the institute have been suspended. The charge of lax discipline at the institution is sustained by the report and Superintendent Smead is mildly censured.

PRINCE HENRY.

Emperor William Ready to Receive His Royal Brother.

Berlin, March 17.—Emperor William boarded the battleship Kaiser Wilhelm II. and will traverse the Kiel canal to Cuxhaven, where he will await the arrival of the Deutschland, having on board Prince Henry of Prussia. Admiral Von Thomsen and other high naval and military officers will participate in the reception of the prince. The Fourth marine artillery and the Marine band have been ordered to be present. The cruiser Hela will take Prince Henry ashore, after the Deutschland anchors before Cuxhaven. Then Emperor William, Prince Henry and the latter's suite will board the Kaiser Wilhelm II., which will immediately sail for Kiel.

Prince Henry Aboard.

Plymouth, England, March 17.—The Deutschland, with Prince Henry of Prussia aboard, arrived here at 12:30 p. m. and proceeded for Cherbourg and Hamburg.

Cropsey Girl's Testimony.

Elizabeth City, N. C., March 17.—Miss Ollie Cropsey, a sister of the dead girl, testified in the Wilcox trial. She said that Wilcox had been very attentive to Nellie since June of 1898. They were on friendly terms until September last year, when they began to quarrel. Wilcox gave Nellie several presents and often took her to places of amusement, boat riding and driving. Wilcox called after they quarreled in September, but Nellie would hardly speak to him. The night Nellie disappeared witness said Wilcox called and sat in the parlor until 11 o'clock, when he asked Nellie to speak with him in the hall. She was never again seen alive by any member of the family.

After Chicago's Postmaster.

Washington, March 17.—Charges have been filed with the civil service commission against Postmaster F. M. Coyne of Chicago, alleging that he has made a number of changes in the Chicago postoffice for political reasons. The complaint is made by T. W. Witter, formerly superintendent of a station of the Chicago postoffice, who specifies that he was reduced from that position, paying \$2,000 per annum, to mailing clerk at \$1,100, and that on refusing to accept the change he was dismissed. He says this action was due to his being a Democrat. Mr. Witter alleges that Postmaster Coyne reduced nine other men in the service on political grounds.

Fire Feeds on a Flat.

Chicago, March 17.—Twenty-four families occupying the St. Catherine flats were driven from the building by fire. A frigid wind was blowing and the firemen had to work vigorously to confine the flames to St. Catherine's. The tenants had barely time to escape and shivered in their night clothes until neighbors were aroused and gave them shelter. Nearly all household goods and personal effects were lost. William Scanlon, a policeman, fell from a third story window and broke one of his legs. George Patton, one of the tenants, proved himself a hero, by rescuing several women. Total loss \$60,000.

Celebrated at London.

London, March 17.—St. Patrick's day was celebrated more generally than usual. The Irish flag was flying from many public buildings, special services were held in the Catholic churches and the shamrock, or something representing it, was seen everywhere. The Irish troops at the various garrisons were given a day's leave. Following the precedent of Queen Victoria, Queen Alexandra sent the battalion of Irish guards on duty at the tower of London a large quantity of shamrock, which was distributed to the men at parade.

Ambassador Clayton's Denial.

Washington, March 17.—A telegram has been received by Secretary Hay from Powell Clayton, United States ambassador to Mexico, declaring that the charges preferred against him are false. It is said at the department that there is nothing in the law or regulations to prohibit a minister or ambassador from holding stocks or even engaging in business in the country to which he is accredited.

FREIGHT WRECK

In Which Several Trainmen Are Crushed to Death.

New Albany, Ind., March 17.—A wreck occurred on the St. Louis and Louisville division of the Southern railway, near Kyana, 60 miles west of this city, in which Freight Brakeman William Fields of Louisville and Fireman Frank Gleeson of Louisville were killed, and Engineer Claude Sittason of this city was badly injured. The wreck was caused by rails spreading.

WORK OF THE STORM.

Lives Lost, Trains Stalled and Havoc Wrought Among Livestock.

GREAT NORTHWEST HIT THE HARDEST

Cold Wave Causes Humanity to Shiver in a Dozen States—Innumerable Streams Overflowing in the South.

St. Paul, March 17.—The weather in this vicinity is bright and clear, but high winds emphasized the cold. In this city one man, Louis Orlowski, 70, was found dead on the street, apparently as a result of exposure to the cold. Additional details of the terrible storm that has been raging for three days in the Dakotas are slow to arrive, owing principally to the condition of the wires. At least four and possibly many more persons are dead because of the storm and the loss of stock will be very heavy. Exact figures will be unobtainable for several days. The mild weather of the previous three or four weeks and appearances of an early spring resulted in many farmers and stockmen being caught napping. Although warnings were sent out by the weather bureau 48 hours in advance, the storm was felt most by the new settlers, several thousand of whom have moved to North Dakota from the eastern states during the past month, and heavier loss of life is feared among those people. All trains are tied up in North Dakota.

A family of four living north of Minot, N. D., is known to have perished in the blizzard. Many others are believed to be dead, but particulars cannot be obtained, as source of communication are just opening. The stock loss will be heavy.

Rivers Rising.

Atlanta, March 17.—Fair and colder weather in north Alabama and Georgia has caused a slight decline in the stages of the swollen rivers in that part of the two states. The rain area covered the immediate Atlantic coast from Florida north and the rivers in that section of the country are still rising. The Flint river at Albany, Ga., has reached a stage within five feet of all previous high water marks and from present indications it is believed the high water mark will probably be passed. All streams are overflowed and many lowlands inundated. The loss to farmers will be heavy.

Trains Blocked.

Denver, March 17.—The snow and wind storm that has been raging for the past four days along the mountain railroads is beginning to make itself felt. Snow plows and flangers have been keeping the lines open and extra gangs of men have been fighting the drifts clear of the tracks. Now small slides are being reported, while the drifts are growing to great depth. On Tennessee Pass nearly four feet of snow has fallen and the snow on the ground on Marshall Pass has reached the depth of 7 inches. Colorado and Southern trains are held at Alpine.

Tracks Washed Away.

Pensacola, Fla., March 17.—Fifteen hundred feet of the tracks of the Pensacola and Atlanta branch of the Louisville and Nashville railway at Holmes Creek, near Chipley, was washed away by the heavy rains. No trains have passed on that division since Saturday and no mail or passengers from the east and south Florida points have reached here since Friday night.

Fruit Damaged.

Kansas City, March 17.—The cold wave will continue for 24 hours yet, according to the local weather bureau. The temperature has fallen 30 degrees in this part of the southwest since Sunday night, reading as low as 6 above zero at Abilene and Lawrence, Kan. It is feared that much injury has been done to fruit. No snow is reported.

Cold Wave Short Lived.

Chicago, March 17.—Chicago experiences severe winter weather. Since Saturday there has been a drop in the temperature of 50 degrees. Monday the mercury registered 4 degrees above zero, while a strong wind added to the general discomfort. It is predicted that the temperature will begin to rise Tuesday.

Boat Overturned.

Spring Valley, Ills., March 17.—Four Italians, Barney Baimi, Vincent Taro, William Lingi and Earnest Citro, attempted to cross the Illinois river at this point in a skiff. The boat capsized in midstream and all but Citro were drowned. The bodies have not been recovered.

An appropriation may yet be made for a new State Capitol by the present Legislature. Senator Taylor, of Frankfort, turned a neat trick on the opponents of the measure Saturday by tacking an amendment on the revenue bill providing an appropriation of \$90,000 a year for new State buildings. The Senate passed the bill as amended, and it's now up to the House.

ABERDEEN, O., March 15.—The town of Fitch's Chapel, six miles back of here, is almost depopulated. Twenty-two families have left the place in the past week and have moved to Oklahoma.

The above is a Times-Star special. Fitch's Chapel is not a town but a church. The families that left for Oklahoma a few days ago did not come from Fitch's Chapel but lived in different portions of Huntington township.

D. HUNT & SON

NATION'S DRINK BILL.

It Amounts to \$1,273,212,386, of Which \$1,094,644,155 is for Alcoholic Beverages.

Interesting Statistics Furnished by the American Grocer—Milder Stimulants Growing in Favor.

[American Grocer, March 12th.]

It is worthy of note, from the following compilation, made from official reports of the United States Government, that another year of unequalled prosperity has not increased to a marked extent the consumption of alcoholic liquors. The figures show a slight gain in the use of spirits, and a more pronounced increase in the consumption of beer. The total increase in the use of all sorts of spirituous or malt liquors, in 1901 over 1900, was only .22 of a gallon. On the other hand, the use of coffee increased .79 of a pound per capita, and of tea .05 of a pound. The milder stimulants are more in favor than ever.

We use the same basis of retail cost in making the following estimate as was adopted in previous calculations. Out of \$1,273,212,386 spent for beverages, about 86 per cent. is spent for alcoholic stimulants, of which 50 per cent. is for beer; 31 per cent. for whisky; 5 per cent. for wines.

If the quantity of tea and coffee used is reduced to its equivalent as a beverage, we find that more gallons of coffee are consumed than any other sort of drink, amounting to 1,321,372,454 gallons, as against 1,258,249,391 gallons of beer—its greatest competitor.

From the latest report of the United States Bureau of Statistics we compile the following table, showing the per capita consumption of liquors in this country:

	Spirits.	Wine.	Beer.	Total
	Gal.	Gal.	Gal.	Gal.
1892.....	1.51	.44	15.17	17.12
1893.....	1.52	.48	16.20	18.20
1894.....	1.34	.31	15.32	16.97
1895.....	1.13	.28	15.13	16.54
1896.....	1.01	.26	15.38	16.66
1897.....	1.02	.53	14.94	16.50
1898.....	1.12	.28	15.96	17.36
1899.....	1.17	.35	15.28	16.80
1900.....	1.27	.40	16.01	17.68
1901.....	1.33	.37	16.20	17.90

Bringing together the items of the estimated cost of all alcoholic beverages, we have as the retail cost to the American people of alcoholic stimulants for the year ending June 30, 1901, the following:

Beer.....	Dollars.
Whisky (exclusive of quantity used in arts).....	630,922,886
Wines.....	391,890,775
	71,830,494

Grand total.....1,094,644,155

Estimated cost in 1900 on the same basis.....1,009,563,787

Estimated cost in 1899 on the same basis.....973,589,080

The total revenue of the United States Government in 1901 for spirituous and malt liquors was \$191,697,888—a per capita tax of \$2.50, or \$12.50 for every family.

Bringing together into one group the cost at retail of all beverages, we find that the United States consumed in 1901 alcoholic and non-alcoholic stimulants to the value of \$1,273,212,386, as follows:

Alcoholic drinks.....	Dollars.
Non-alcoholic stimulants—	
Coffee.....	132,137,245
Tea.....	39,430,986
Cocoa.....	7,000,000—178,568,231
Total, 1901.....	1,273,212,386
Total, 1900.....	1,228,674,925
Total, 1899.....	1,146,897,822
Total, 1898.....	1,177,661,366

The above represents a yearly per capita expenditure for beverages of

\$16.40 for the 77,647,000 inhabitants of the United States, or 4½ cents a day.

The quantities of the four leading beverages consumed for the year ending June 30, 1901, were as follows:

	Gallons.
Coffee.....	1,321,372,454
Beer.....	1,258,249,391
Tea.....	402,872,000
Spirits and wines.....	127,089,278

Coffee continues to hold first place in the affections of the American people. Its low cost stimulates demand and makes it a formidable competitor of alcoholic liquors and malt beverages. The use of beer, wine and spirits shows inconsiderable gain over 1900—a notable fact in view of the great prosperity of the United States. It is evident that the American people are temperate in the use of stimulants and that they are not increasing their use of such as tend to debase manhood, increase our taxes, promote pauperism, or stimulate crime.

Glorious Easter

IS FAST APPROACHING!

We made the effort of our career to have the most attractive and at same time most modest in price Children's and Boys' Clothing for Easter holidays. Our Children's Suits begin at \$1.50 a suit. Don't let this price suggest to you a doubt as to the wear. It is a regular \$2.50 Suit. The quantities we bought makes it possible to sell them at \$1.50. From this price we go to \$2 and up to \$6. None can be duplicated at the price elsewhere. We respectfully invite all mothers who have youngsters to clothe to examine our Children's and Boys' Clothing.

Our Easter Neckwear will be a revelation to you. Hats in so many styles and qualities that it would take an entire newspaper to tell of all.

OUR NEW SPRING YOUNG MEN'S AND MEN'S CLOTHING

is just the kind that you cannot do without, and cannot find them in any other house in the State. Here you find the choice productions of four of the most celebrated Rochester manufacturers. Stein-Bloch Co., L. Adler Bros. & Co., Michaels Stern & Co. and Garson Meyer & Co. Ask other clothiers what class of merchandise these four firms turn out. All of these lines are confined to us. No other clothing house in the State can truthfully make this statement.

Our \$6, \$8 and \$10 Suits of which we have an immense variety, you will find the best for the price in the market. Our Spring Top and Cravenette Coats will interest good dressers. We want you to see them.

Don't overlook our Men's and Boys' Shoes. Look in our west window. You will feel interested. Every pair we sell are guaranteed to give reasonable satisfaction.

FORTUNES IN OIL!

Kentucky just now is attracting prospectors from all over the land. The wells already sunk prove it a very rich oil producer. MONEY INVESTED NOW MAY DOUBLE OR QUADRUPE IN LESS THAN A MONTH.

Our holdings consist of about 5,000 acres in Wayne County, near the great Sunnybrook field, about 6,000 acres in Lincoln County, and 600 acres in Licking Valley in Bath County, close up to Ragland. Our first two wells near Ragland are producers. We have started to drill in all three counties, and expect to strike oil in every well. We are still acquiring valuable lands in addition to those already secured, and lying in close proximity to the greatest developments in the State.

A limited amount of the treasury stock will be sold, at \$5 per share, par value of shares \$10 each. This stock will, we confidently believe, be selling for par in thirty days.

THE BEE HIVE

DIFFERENT NOW FROM THE CIVIL WAR TIMES!

Two hundred thousand buyers go to New York each season. One hundred and ninety thousand don't know how to buy! One hundred and ninety thousand merchants would be better off if they stayed at home and wrote to some good house to send them what they need.

Some merchants wonder why their goods don't sell when they advertise that they were in New York to buy them. Some merchants don't know that the war is over. Some merchants think because they bought certain kinds of goods every year for FORTY YEARS they still have to buy them. THEY DON'T KNOW that they should have stopped buying that same article THIRTY-NINE years ago. GOODS BOUGHT RIGHT ARE HALF SOLD.

The secret of MERZ BROS.' success is in OUR NEW YORK CONNECTIONS. We have been asked very often how it is that we have an entirely different line from other merchants. We answer that the goods we buy are not shown in New York. Take for instance our trimming house. The buyer goes to Europe with a thousand customers on his books. He sees a handsome novelty; he buys all of it and sends it to all customers on his list. It's never shown in New York. And so it is down the list—Dress Goods, Silks, Laces, Embroideries, etc. 'Nuff said. Just remember what we show is fashion; what we don't is not.

MATTINGS

INSANE SOLDIERS.

A Car-load of Them From the Philippines Being Taken to the Asylum at Washington City.

OMAHA, Neb., March 16.—Quite a commotion was caused at the Union Station by the arrival of a car-load of maniacs from the West.

They were United States soldiers gone insane in the service in the Philippines and their condition was pitiful. All were absolutely mad and violent.

All wore leg irons and handcuffs and some were in straitjackets, being then bound to isolated parts of the car. There were eighteen of those maniacs in all.

The guards and care takers were a squad of Government soldiers stationed at the door of the car and at intervals along it with clubbed guns.

As the train pulled into the station there was a confused sound, as of a menagerie approaching. The imprisoned men were chattering, snarling, growling, moaning, roaring and whining like so many wild beasts.

Each one seemed to imagine himself some representative of the animal kingdom, and the result was terrifying.

The Chicago, Milwaukee and St. Paul road took the men to the Insane Soldiers' Hospital at Washington.

BIG POWWOW.

The Red Men of the State are brushing up their feathers preparatory to the meeting of the Great Council, or grand powwow of all Kentucky Indians at Owensboro, which begins on April 13.

Grand Sachem Ellerkamp has his staff officers at work on the preliminaries, and the outlook indicates that more scalps will be taken than were ever known before. Mr. Ellerkamp says his business will be the cause of him declining to run for office at the coming meeting, and that Mr. W. C. Pelham, of Maysville, is in line for promotion to the position of Grand Sachem, and will, no doubt, be his successor.

Brought Down the Game.

(Georgetown News-Democrat.)

After all the Republican rant about Wheeler's speech it has brought down its game. Princess Alice of the House of Roosevelt will not attend the coronation of King Edward the VII, not because she and her pappy are not willing, but because they are afraid of the sentiment that Wheeler represents. The man not afraid of a mountain lion gets down and crawls before a common, everyday Kentucky Colonel.

Beauty is born in the blood. Beauty is more than 'skin deep.' It is blood deep. When the blood is tainted by disease the flesh will feel it and the skin will show it. Sallow or muddy complexion, pimples, blotches, and eruption are only the surface signs of impure blood. Face washes, lotions, complexion powders, may palliate the evils but they cannot cure the disease. The only cure is to cleanse the blood of the poisonous matter which is the cause of the outbreak in the flesh and skin. Impure blood can be absolutely purified by the use of Dr. Pierce's Golden Medical Discovery. Its effect on flesh and skin is marked. Sores heal and disappear. The skin becomes smooth, and regains its natural color. The eyes brighten and sparkle, the whole body is radiant with the brightness and beauty of health. "Golden Medical Discovery" contains no alcohol, whisky or other intoxicant, and is absolutely free from opium, cocaine and other narcotics. The use of Dr. Pierce's Pleasant Pellets assists the action of the "Discovery," by cleansing the system of clogging matter.

THE Boot and Shoe Recorder,

Boston, Mass., of March 12th, says Dan Cohen gets 614 cases for his Cincinnati store. This is the largest shipment of the week for any Cincinnati Shoe firm. Many more goods to follow. The Maysville store will have its full share of the bargains. We claim buying as a big jobber is an advantage no other Maysville store has.
